

Six giants want to like rip down like firewalls so they can own even MORE?

--Gee, give away OUR airwaves to gigantic corporations? ...improve --what? their profits? I'm fuzzy, How will that benefit my city? Me? The Country?

If one of the Six who will own all the TV -newspapers -radio -cable in my city? doesn't Feel like sending a reporter to cover local government --speech of a senator they don't like --Town Hall meeting critical of a giant --then what?

Or supposing all six of them just happen to be at same golf course at the same time, and they discovered that they all liked the same person--for president. Could they decide to report on that person --but nobody else? --or make everyone else sound bad?

Then what?

Or what if the giants decide they could sell more Coke, more burgers if they showed kids what adults do, in private--decide kids have rights and they could make even more money doing that--could that be stopped? How?

I mean: if six companies own all the ways to tell news--HOW could anyone Force them--to even report if people were unhappy with them?

Do we ask Mickey Powell to Make them cover things, be fair, not show stuff we don't want? How would that work? --I've written to him, past two years, he's NEVER answered me, would that change --would he promise to get better? --If SIX owned ALL the outlets, What do we do if he Won't make them? --Or if he doesn't work there any more? Would each city have to hire their own lawyer and sue to get--OH, if we change things it would be Legal for the giants to Do whatever, so that wouldn't work. Hmmm....

--Is there some reason this has to be decided now? --No one in my neighborhood has heard about this, it hasn't been on nightly news--why is that? --Gosh it's a Tough decision, it IS important to make even More Money --get even bigger, like a pig, right? But gee, I dunno, Sounds tricky, Let's NOT CHANGE ANYTHING.
